

PRAVEEN SINGH

Senior React Native Developer

Noida, India | +91 8668934765 | praveen.codeit@gmail.com | linkedin.com/in/praveens2

SUMMARY

Senior React Native Developer with 5+ years of experience building production Android and iOS applications across fintech, edtech, telecom, and franchise operations. Strong in React Native, TypeScript, JavaScript, React.js, Redux, GraphQL, REST APIs, native modules, New Architecture, offline-first architecture, performance optimization, testing, and CI/CD. Delivered 8-10 production apps, supported 150+ franchise brands, reduced release cycle time by 40%, and improved API response times by 30%.

EXPERIENCE

Delightree — Senior React Native Developer

Mar 2026 - Jul 2026

Remote, India

- Optimized React Native audit workflows supporting 150+ franchise brands, reducing screen load time by ~42% using FlashList and rendering optimization.
- Improved REST-based SOP search using debouncing and caching, reducing API latency by ~33% and unnecessary API requests by ~30%.
- Built offline-first audit and checklist workflows with queued synchronization, improving crash-free sessions from 98.2% to 99.3%.

upGrad — Software Developer II (React Native)

Jan 2025 - Feb 2026

Noida, India

- Scaled the React Native learning application across Android and iOS, reaching 5M+ Android downloads, 100K+ MAU and maintaining a 4.6★ Google Play rating.
- Engineered Brightcove adaptive video streaming and offline-learning workflows using Swift/Kotlin native bridges, reducing video startup time by ~37%.
- Automated Android/iOS delivery using Fastlane, GitHub Actions and CodePush, reducing release-cycle time by 40%, cutting build time from ~18 to 11 minutes and accelerating production hotfixes to under 2 hours.

Gojoko Technologies — React Native Engineer

Aug 2023 - Sep 2024

Noida, India

- Optimized GraphQL/Apollo data flows for the Reevo fintech application using normalized state and caching, improving API response performance by 30% and reducing GraphQL latency from ~650ms to 450ms.
- Strengthened automated testing and release validation across critical financial workflows, reducing production bugs from ~32 to 11.
- Streamlined Android/iOS release workflows, reducing build time from ~18 to 11 minutes and accelerating critical hotfix turnaround from ~24 hours to 6 hours while maintaining ~78% test coverage.

Webmobril Technologies — React Native Developer

Sep 2021 - Aug 2023

Noida, India

- Delivered and supported 8–10 production React Native applications across e-commerce, NFC and IoT use cases on Android/iOS, shipping 35+ features from development through store deployment.
- Implemented offline synchronization and local caching across mobile workflows, reducing sync failures from ~8% to 2%.
- Integrated Stripe payments, NFC through Kotlin native modules and BLE/IoT connectivity across production applications, supporting 100K+ NFC interactions.

TECHNICAL SKILLS

React Native & Mobile: React Native, React Native CLI, New Architecture, Fabric, TurboModules, Hermes, React Navigation, Native Modules, Android, iOS

Languages & Web: TypeScript, JavaScript (ES6+), Swift, Kotlin, React.js

State & APIs: Redux, Redux Toolkit, Zustand, TanStack Query, GraphQL, Apollo Client, REST APIs, AsyncStorage, MMKV

Performance & Testing: FlashList, Reanimated, Rendering Optimization, Memory Management, Lazy Loading, Accessibility, Jest, React Testing Library, React Native Testing Library

CI/CD & Release: Fastlane, GitHub Actions, CodePush, App Store Connect, Google Play Console, Firebase, Sentry, Git

EDUCATION

B.E. in Computer Science and Engineering | Priyadarshini Bhagwati College of Engineering, Nagpur | 2013 - 2017
